

Commercial Clarifications:

1. TEI Construction Services Inc. agrees to be bound by the commercial terms and conditions as agreed to between BPI and Intermountain Power.
2. TEI has not included the cost of any Payment or Performance Bonds.

Technical Clarifications:

1. TEI has not allowed any cost for any rework of the wind boxes other the two each braces which are shwon on the BPI drawings which are to be revamped.
2. TEI has not allowed for any rework on or inside the wind boxes due to present conditions pertaining to warpage or etc. If there were any repairs or rework required, then we would perform it on a T&M basic.
3. TEI has not included any vacuum of the wind boxes. If needed then it would be done on T&M.
4. TEI has not included any painting other than touch up. No finish paint is included.
5. TEI is based on the use of the IPP Boiler house crane.
6. TEI proposal is based on the openings which are described in our Implementation plan be allowed to be installed.
